It certainly must be known by most every citizen that your Police Department is sworn to en-

deavor to maintain law and order and see to it that the peace be kept in our community.

This job, to say the least, in a great many cases, is a thankless one, and only too well do those who are vested with this task know it to be without reasonable compensation. May I take liberty at this point to inquire; how many of you citizens would care to enlist in this type of service at fifty cents or less per hour?—And without proper rain equipment and in the winter time, without a proper uniform overcoat?

May I state at this time it is my belief, after a careful investigation, there are few towns, if any, where their Police Officers do not receive at least one dollar per hour when on duty, and in many cases, one dollar and twenty five cents per hour.

Within our town we have four licensed clubs and one tavern or cafe which holds licenses to sell beer or liquor or both to be consumed on premises; and in addition to this, there are nine stores who by virtue of a license have a legal right to sell beer and ale to take out. And one can expect from time to time conditions are of such a nature that your Police officers are taxed with extra long hours and not the most favorable type of people to reason with. Therefore, if there is insufficient salary to create incentive, you may well expect little interest from your law enforcement officers, thus the whole law enforcement structure is weakened.

You may also be surprised to learn that your Chief of Police has very little time of his own, so to speak, especially if he is sincere in his work and answers the calls and investigates the complaints that come to his attention practically every day and night of the week. A Police Radio would be a tre-

mendous asset to your Police Chief. More than once police radios have been the means of saving lives by summoning an ambulance, a doctor, or a Fire Department. I have been advised that the government would stand one half of the cost of installing same if the town or other would stand the other half. I believe this cost to be about two hundred fifty dollars to each.

May I state at this time that the only reason that the Police appropriation has not been over-drawn for 1956 is because your Chief of Police has used his salary to defray considerable expense which is no secret to some of our citizens and businessmen; this being done because it is his birth place and he loves it and its citizens.

On Halloween night last October your Police Dept. held a Halloween Party for our teenagers supported by some of our civic minded citizens and business people. There was music, an art lecture by Mr. Cloutman, apple bobbing, refreshments, games and dancing for all. There was some three hundred children present, and a clean wholesome party was enjoyed by everyone. We can not do too much for our youth in the form of clean fun and entertainment in these trying times; I hope to see more of it in the future. May I take this opportunity to thank everyone who helped to make this party a success.

Just a word about our night court—it should be considered as a must in my opinion. Because if it were not for a night court, very few people who subscribe to the law enforcement business could not or would not lose time off during working hours to attend court. Therefore they would be reluctant to prefer charges against an offender. Again, your

whole purpose and quality of law enforcement would be lost.

In closing, may I state it is my belief our community is enjoying some improvement in traffic conditions in the last few months. Most of our citizens, I am proud to say, respect and try to obey our laws; and there wholehearted cooperation has been deeply appreciated.

Respectfully submitted,

CHARLES M. GRANT

Chief of Police

Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks.

GENERAL COMMENTS

Appropriation Overdrafts—Application of Municipal Budget Law:

It is noted that in each of the years 1954 and 1955, there were net overdrafts of appropriations amounting to $5,337.72 and $1,956.19, respectively, the total expenditures exceeding total budgetary appropriations by these amounts.

The Municipal Budget Law (Chapter 32 of the Revised Statutes Annotated) provides that in such cases application should be made to the Tax Commission by the Selectmen, with the approval of the Budget Committee, for a certificate of emergency

authorizing the Town to exceed budgetary appropriations. The records do not indicate that this procedure was followed.

Section 10 of the Municipal Budget Law, in reference thereto, reads as follows:

"**Exceeding Appropriations.** In towns adopting the provisions of this chapter, no board of selectmen, school board, commissioners of a village district wholly within said town, or other expending agency shall pay or agree to pay any money or incur any liability involving the expenditure of money for any purpose for which an appropriation has not been made, or in excess of any appropriation or allotment made to it, except for the purpose of paying judgments rendered against the town or school district or said village district, provided, however, that in case of sudden and unexpected emergency the selectmen or village commissioners on application to the tax commission and the school board on application to the state board of education, after hearing, may be given a certificate of emergency authorizing them to make such expenditure or incur such liability, provided that no such certificate of emergency shall be granted unless the budget committee of the town has approved the expenditure. In cases arising during the year following the annual meeting where changes occur which make it unnecessary to use the amount appropriated for a specific purpose, an unexpended balance may be transferred by the board of selectmen or the school board or the village commissioners of such village district from one appropriation to another, provided the total amount expended for all purposes does not exceed the total amount appropriated at the town, school or village district meeting for all purposes."

Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that the summary findings and recommendations (letter of transmittal) of this report shall be published in the next annual report of the Town.

We extend our thanks to the officials of the Town of Rollinsford for their assistance during the course of the audit.

Yours very truly,

REPORT of SUPERINTENDENT of SCHOOLS

To the School Board and Citizens of Rollinsford:

I, herewith, submit my annual report as your superintendent of schools. In my report last year I pointed out that the net cost of operating our school sysem had remained fairly constant over the period of 1952 to 1956. Last year, however, increased enrollment began to be reflected in the school budget. The following average number of pupils in our Grade School shows that we are faced with a total increase of 67 pupils or a 50% increase in the space of four years:

School year	Enrollment	
1954-55	133	
1955-56	147	
1956-57	184	
1957-58	200	(Estimate)

It is impossible and false economy to expect that the schools can be operated on a sound basis without increasing school expenditures to correspond with the increased number of children who come to our schools. More children means more classrooms, equipment, books, and additional teachers. For years we sacrificed many educational benefits to our children by having one teacher teach two grades in the same classroom. This was possible because the total number in each grade was not too large. During the present school year the influx of new pupils was so great that another teacher had to be added and another classroom made available. The School Board in its preparation of the school budget last January could not foresee this sudden increase and

so was forced to seek approval from the budget committee and selectmen for a deficiency appropriation. A room previously used for a wood-working class was converted into a classroom. This year another teacher and classroom will need to be added. Plans are to convert the cafeteria into a classroom. It should not affect our hot lunch program but it will in all probability curtail our shop and home economics courses for the 7th and 8th grades.

Tuition rates for our high school pupils continue to rise. Most of our pupils attend Dover High School. The rate for the present year is $315.15; for the 1957-58 school year it has been set at $354.00 which represents the state average cost per pupil. Actually it has cost the Dover School Department in the vicinity of $380. per pupil. In order to clarify the wishes of the citizens on the matter of tuition charges the School Board has included several articles in the school warrant on this matter.

The following reports and statistics will further serve to explain the major areas in our school.

I cannot close this report without acknowledging with appreciation the efforts of the School Board and the members of the teaching staff in cooperating to solve the number of problems which confronted us during the past year. Our schools are an investment in people and represent a significant part of our vast heritage which we Americans enjoy. One of the fundamental and most vital parts of our governmental structure is the guarantee of free, public, and universal education locally administered.

Respectfully submitted,

ARTHUR E. TOLL
Superintendent of Schools

REPORT OF SCHOOL PRINCIPAL

TO: The Superintendent of Schools
The Rollinsford School Board
The Citizens of the Town of Rollinsford, N. H.

It is with pleasure that the following report is submitted covering a portion of the activities of the Rollinsford Grade School for the year 1956-1957.

Enrollment

The Rollinsford Grade School began its Fall session this year on Wednesday, September 5, 1957, with an enrollment of one hundred and sixty-nine. Since the opening of school we have been steadily increasing the enrollment through transferees from other school systems both within the state and from outside. At the present time the enrollment stands as follows:

ENROLLMENT DATA TABLE

Teacher	Grade	No. Pupils Per Teacher	Boys	Girls	
Marjorie Perkins	1	22	11	11	22
Bernice Doherty	2	29	15	14	29
Greta Benoit	3	28	10	18	28
Edna Langley	4	33	19	14	33
William Avery	5		10	11	21
William Avery	6	37	10	6	16
Edwin Chamberlain	6		*10	*6	*16
Edwin Chamberlain	7	54	11	12	23
Edwin Chamberlain	8		*6	*9	*15

Lewis Hatfield	6		*10	*6	*16
Lewis Hatfield	7	54	*11	*12	*23
Lewis Hatfield	8		6	9	15
Totals			92	95	187

* Repeated Total

It is felt that this figure of 187 is by no means the final figure for the year, and that by applying the rate of increase that has been obtained from previous years that the enrollment may reach as much as 195 by the close of school in June.

Faculty

The increase in the school enrollment, as indicated in the previous section, had the immediate effect of causing an increase in the faculty of the school. Mrs. Langley was faced with a combined class of 4 pupils in the third and fourth grades. It became necessary to split these two grades and to employ another teacher for Grade three and to leave Grade 4 with Mrs. Langley. Our new addition to the faculty was Mrs. Greta Benoit of South Berwick, Maine. Mrs. Benoit had previous teaching experience in Lebanon, Maine and came to us well recommended.

Another new member of the faculty was made necessary by the retirement of Miss Anne Brown, teacher of the first grade. Mrs. Majorie Perkins of South Berwick, Maine was hired to fill the vacancy in the first grade. Mrs. Perkins has had previous teaching experience in the schools of Eliot, Maine, and also came to us well recommended.

With the resignation of Mrs. Martha Evans, the Home Economics teacher, it became necessary to find a replacement. We were able to fill the vacancy with the hiring of Mrs. Marion W. Hall,

Dover, N. H. Mrs. Hall has had much previous teaching experience and is filling the job capably.

The remainder of the faculty has undergone no change, and reference to the Faculty Data Table shows the Grade teaching assignment of each.

Instruction

The instruction of pupils continues on a plane similar to that of the past year. During the number of visits to the individual classrooms made by the principal, it has been noted that the quality of the instruction is generally high, and that the faculty as a whole is conforming to the standards of instruction set up by the State Department of Education. It is to be found also that the curriculum as set up by the State Department of Education, with such modifications or additions as have been found necessary by local conditions, is being adhered to.

Two major objectives of instruction as carried on in the school may be summed up as follows:

(1) To get to know thoroughly each individual pupil as a total functioning person—his aptitudes, capabilities, interests, ambitions, school needs, psychological dynamics, and such other information and data about each that can be acquired and used for his advantage.

(2) To help each pupil to understand himself thoroughly so that his plans and choices will include his new definitions of himself as a total person with specific aptitudes, interests, limitations, and goals.

School Lunch Program

A typical lunch for each day of the school year consists of the following:

(1) A hot dish, consisting of one of each of the following:

(a) Beef, Pork, Lamb, Chicken, Turkey, Fish

(b) Potato, Rice, Noodles, Macaroni, Spaghetti

(c) Vegetables, according to the season, both fresh and canned

(2) A sandwich of some variety

(3) A dessert of some variety
Cake, cookies, pie, ice cream, fruits, etc.

(4) A botle of pasteurized milk.

The cost of the meal is $.25 per child per meal.

The following is a summary of the school lunch program of the Rollinsford Grade School for the year 1955-1956:
